Mr. John Hipchen of Konnectronix at the IPI Trade Show June 2018

“

“Achieving California's ambitious goals for reducing air pollution and harmful greenhouse gas emissions will require 7 million electric cars on California highways by 2030.”

“By introducing more electric taxis to Columbus streets, the program seeks to foster sustainability, educate the public on EVs and capture data on EV usage.”

“June will mark the 33rd month of consecutive year-over-year monthly sales gains for plug-in vehicles.”
